

[Virtual Tour Company of Cape Coral](#) Provides A Powerful Sales & Marketing Tool for Realtors and Builders

**CAPE CORAL, FLORIDA** - [360VTour.net](#) today announced a powerful sales and marketing tool for realtors and builders. The company is offering panoramic virtual tours to leverage the power of the Internet in showcasing properties online utilizing an interactive format. The proprietary software system used by the company has significantly reduced the time to build and post tours online, which allows them to offer high quality tours at practical prices.

“Panoramic virtual tours add an exciting dimension to property listings,” said Michael Fallacara, owner of 360VTour.net “Because they are available 24 hours a day, 7 days a week on the Internet, clients can attract global audiences that can view tours at their convenience.”

“[Virtual tours](#) eliminate repetitious presentations and reduce time and travel costs,” added Fallacara. Typical businesses using virtual tours include Real Estate companies, Builders and Property Managers.

Fallacara started 360VTour.net 2 years ago with one goal in mind; to offer the highest quality interactive virtual tour at a price that enables realtors and builders to use the marketing tool for every property listing. In this economically down turned market, the use of a virtual tour to market listings online has become a necessity in order to set properties apart within overfilled housing inventories. With foreclosures at an all-time high, now more than ever consumers want to see the properties before scheduling an on-site visit. In the past, full service virtual tours were expensive and only included a couple panoramas, which is not enough for out-of-town customers to really tour the home and make the decision to make an appointment. For this reason, 360VTour.net does not limit the number of scenes allowed per property listing. Every room in the property is showcased within the virtual tour, (including the exterior) focusing on key selling features such as pools, waterfront and impressive views.

Judging by the testimonials on their website, it's obvious that realtors and builders agree with Fallacara's concepts and marketing strategies.
