

PRESS RELEASE

RTV AND TALKINSITES.COM JOIN FORCES TO OFFER ENHANCED "VIRTUAL TOURS" INTERNET SERVICE

Traverse City/Lansing, Michigan Apr 25, 2003 Traverse City's www.RealTourVision.com (RTV) and Lansing's Talkinsites.com have combined their two web based technology solutions to offer what the companies say are the best 360° Virtual Tours with premium audio clips.

RTV is a national leader in 360° virtual tours with thousands of clients nationally and a growing number of international clients. RTV's tour system is based on speed, quality, and economy, and the tour system is one of the most comprehensive yet flexible systems available in the world today. The RTV tour system is a high-end tour system that is used in the real estate industry and is a preference for resorts, hotels, golf courses, and a variety of businesses that use virtual tours for selling, training and security.

Talkinsites.com is known internationally for its web audio solutions. Talkinsites' web audio technology was called one of 2002's Top 25 Ad Innovations by *The New York Times*. Their "TLK" web audio files are highly compressed, uniquely small and stream load so they begin playing the instant a visitor enter the site. No special player or new plug-in is needed.

According to the companies, other internet tour services do not come close to the high- end imagery and audio provided by the new service.
